PROYECTO VALLE DE CACAULAPA

CATALOG FORM

DATE: 25-July-2002

LOT NUMBER: 29A4/002

SUBSTANCE: Stone

OBJECT: Mano

CATALOG #: 29A4/002-1

MULTIPLES? NO DRAWN BY: 31

CATALOGED BY: 31

EXCAVATOR: 45

DIAMETER (only if item is basically circular; take average): 6.93

HGT/LENGTH: 11.44

WIDTH:

THICKNESS:

VERBAL DESCRIPTION:

This is a whole partial mano. If a partial mano, it is an end—a midsection.

The material is: vesicular basalt — other (describe or name)—

In cross-section, this item is: round — oval — square — rectangular — multi-sided . If multi-sided, how many?:

How many working surfaces/areas are visible: 1

The working surfaces/areas are: smoothed only — show use-related polish — can't tell.

The working surfaces/areas extend: completely — partially across the item as preserved.

The working surfaces measure (do each separately): 9.4 x 2.8

The end-to-end shape of this mano is: equal in width throughout — smaller on the end(s) than in the middle. If it is larger in the center, give the dimensions or diameters:

Minimum: 5.9

Maximum: 6.9

If an end is preserved, the end shows: pecking — grinding — striations — a smooth surface — a polished surface — can't tell.

The sides show (mark all that are appropriate): pecking — grinding — striations — smoothed areas — polished areas.

If the item is broken, the broken end is sharp — is somewhat sharp, but appears eroded — has been battered or chipped.

If the end seems to be battered or chipped, this seems to be the result of: accident/depositional conditions — deliberate use — cannot tell.

Item is: not drawn — drawn (where?) reverse

Comments: 1 working area is more pronounced than the rest of the surface. Remaining portion is worked w/ use-related polish.

29AY/002-1
